me: http://www.thetechherald.com/article.php/201106/6785/Report-HBGary-used-as-an-object-lesson-by-Anonymous
be sure to see Bloomberg piece when it appears
we have destroyed HBGary
we'd found an e-mail among those seized
me: from exec Gregg
saying they should position Aaron Barr as a "hero to the public" for helping to catch Anon
me: Bloomberg saw text of it and asked a certain Karen Burke if she knew anything about it
she said no
me: the e-mail was to Karen Burke and she responded
and we've provided the whole thread to Bloomberg
reporter actually said, "wow."
dynamicuno@gmail.com: Wow
dynamicuno@gmail.com: HBGary is an idiot
me: HBGary's a company
me: Aaron is an idiot
me: and so is Gregg Hogslund or whatever
me: see the Bloomberg piece when it comes out
me: they're going to go down in lawsuits, etc
me: and were caught lying to press, etc
dynamicuno@gmail.com: That document of notes is what Aaron had?
me: the Anon doc? yeah
me: was in their server
me: lot of it is wrong
me: some hilariously wrong
me: I'm noted in it
dynamicuno@gmail.com: yeah its a mess
dynamicuno@gmail.com: Haha yeah I saw
me: with these other screennames I supposed use
me: Gregg Housh
me: is C0s
me: and he's also PUBLIC
me: I mean, it's just terrible
dynamicuno@gmail.com: I am enjoying the irony of the security expert getting hacked
dynamicuno@gmail.com: There goes his PR
